PROFESSIONAL SUMMARY

Experienced React developer specializing in complex dashboard projects, with over two years of expertise in modern tech stacks for crafting dynamic and responsive web applications.

WORK HISTORY

React Developer (remote) | Netondo (Jubee Platform) - Vilnius, Lithuania
07/2023 – 04/2024

- Developed a comprehensive multi-currency wallet application from scratch using React.
- Designed and implemented the application architecture based on Figma design, ensuring a seamless user experience.
- Implemented complex multi-step forms with validation using React Hook Form and Zod schema validation.
- Integrated various external API services for functionalities such as currency exchange, IBAN account management, and card transactions.
- Implemented two-factor authentication (2FA) for enhanced security using modern authentication protocols.
- Utilized TypeScript for static type-checking and improved code quality.
- Leveraged React Query for efficient data fetching and caching, ensuring optimal performance.
- Styled user interfaces using Tailwind CSS to achieve a clean and consistent design across the application.

React Developer | Lider Advertising (Rahat Bina Platform) - Baku, Azerbaijan
10/2021 – 04/2023

- Led the transformation of a large property management system from vanilla JavaScript to a React.js application, enhancing scalability and maintainability.
- Designed and implemented multiple role-based interfaces to cater to different user roles within the property management system.
- Developed complex UI components including big calendars, date-pickers, data-tables, and charts to visualize property data effectively.
- Collaborated closely with backend developers to integrate front-end functionalities with backend services via RESTful APIs.

SKILLS

- HTML & CSS
- Redux Toolkit

- Tailwind CSS
- Material UI, Shadcn UI
- JavaScript
- TypeScript
- React.js, Next.js
- TanStack Query
- React-Hook-Form, Formik
- Zod, Yup
